We create infrastructure and programmes for education, health and welfare – worldwide.

Each project is carefully selected and tailored to the needs of the children in the respective community.

WE PROMISE

Every
project
will last
at least
25 years

We create
impact and
maintain our
investments
for at least a
generation.

100 %

of every euro and pound
go towards a project.

More than

700,000

children and young
people have been offered
access to high-quality
education, healthcare
and welfare.

**You can
make a
difference.**

Creating value for generations

We think sustainably. Because it's important to make a difference in the long term. And that's why every donated euro and pound goes 100% into projects.

Impact investment

We draw on real estate expertise offered by our close relationship with PATRIZIA and understand how to run projects successfully. We promise that every euro and pound will multiply into two, three or four.

Partnership with experts

By working in close collaboration with selected partners, we invest successfully in social development. It's important to us that our partner organisations share our values and philosophy.
